---

This Sauna makes for an amazing and relaxing experience after a tough day at work or after a grueling workout. The heat will allow your muscles to recovery and relax and reduce any muscle stiffness. The steam from the traditional sauna heater will help clear your passage ways. The heat produced by both infrared and traditional will help switch off the stress and relax the mind allowing for a deep and strong sleep maximizing your recovery for the next day. Having a control panel on both outside and inside allows you to start it up prior to its use as well as control and monitor the heat temperature from the inside.

# SPEAKER AND LIGHTS

The sound system is accessible through Bluetooth and USB, this can allow you to relax to your favorite songs or listen to that podcast you haven't had the time to listen to. The LED light system is multi color is control by remote and will allow you to set the mood and relax.

## 2 STEPS

The two step system allows you to maximize the heat by constantly being the position where the hot air and steam is situated. This will allow for a fast and effective sauna.

# SIZING & INSTALLATION

The size of the sauna is the following  
1200 mm width x 1500 mm length x  
1900 mm height.

The installation process is very simple, it all clips together, no tools needed. Simply plug in and use. The installation is done by us and is included in module offering.
